

Edwards Public Records Redaction Notice

The Brevard County Sheriff's Office produced as a courtesy, a redacted copy of the complete investigative file in the Gregory Edwards inquiry. As a result, those records are being made available from our office at no cost.

The cover letter contained in "Edwards Inquiry Report" folder lists the statutory exemptions cited by the Brevard County Sheriff's Office. Any questions as to the statutory justification of the redactions should be directed to Todd Goodyear with the Brevard County Sheriff's Office.

Our office can produce independent public records in this case at a cost of \$20 per hour for review, redaction, and production, however this may result in a significant delay and similarly redacted materials.

Please note that video recorded within the Brevard County Jail is exempt from public record as part of a security system under the provisions of FS.119.071(3), 281.301. Any request for that video should be directed to the Brevard County Sheriff's Office.
