Judge,

I have corrected the Judge Assignment and the case is now reflecting you as the assigned Judge. The Local Disposed status is a status we used for certain motions that we do not report as reopens. I have modified the status to reflect reopen pending.

Thanks,
Leslie

I just looked up this case and it says that it is assigned to Judge Davidson and it is "local disposed". I believe that classification is wrong. I believe it got assigned to me because Judge Lemonidis recused herself. Please check it out when you get a chance. Thanks.
