Received.

Rather than trash talking and bad mouthing Judge Naberhaus for some political rally issue, why don't you speak to lawyers and Judges within the system to find out what quality of a Judge she has been? Going back to law school grades seems a bit disingenuous rather than focusing on her current accomplishments. **She has shown herself to be one of the finest jurists we have in Brevard County.**

I would think that your organization would be more concerned with research before you adopt opinions on any candidate or Judge.
