Mr. Larry Avallone & others who may have concerns:

VolusiaExposed.Com is currently preparing a follow-up article, to both our January 23 and January 6, 2023 articles – regarding the on-going criminal prosecution of Nicole Jackson – a juvenile defendant – being prosecuted as an adult.

Mr. Avallone – according to a June 1, 2022 letter to Ms. Jackson – you advised her that:

“Your age does allow the Judge to sentence you to juvenile sanctions. Juvenile sanctions means that you would serve out your sentence in a juvenile commitment program until you reach the age of 21 years. Only the Judge can choose that option. As an example, if you were convicted at trial, or if you pled, the Judge would only have two options:

- 1. A life sentence**
- 2. Juvenile sanctions”**

Also - during a press briefing – that transpired shortly after Ms. Jackson's arrest – State Attorney R.J. Larizza stated that Ms. Jackson could be prosecuted as an adult – but still be sentenced as a juvenile (see below youtube video – starting at second 30).

Mr. Avallone – is your advisement to Ms. Jackson accurate? Can she take this case to trial – with the knowledge that IF she is convicted - that Judge Blackburn can sentence her to juvenile sanctions?

Due to publication deadlines – please provide any response by noon tomorrow (January 26, 2023)
