Subject: PRR- FDLE report - OR-27-0395

Date: Wed, 15 Feb 2023 13:21:23 -0500

FDLE – and others were included via bcc

Andrew Gant
PIO - VSO

Andrew (and other that may be able to assist):

As you may be aware - VolusiaExposed.Com is developing an article regarding the recent plea deal and sentencing of Nicole Jackson-Maldonado (15 year-old juvenile defendant)

First - we make a public record request (PRR) for the FDLE shooting investigation report number OR-27-0395 - as so indicated within the below linked VSO shooting investigative report.

<http://volusiaexposed.com/investigations/vcso/2021/september/IA21006Severaldeputies.pdf>

We anticipate questioning within our article - whether the AK-47 rifle was ever fired during the shooting incident (by either child).

VSO Deputy Lemay's report seems to indicate that the weapon was not fired (see below linked report - see page 3).

<http://volusiaexposed.com/vcso/2022/nicolejackson92022/chargingreport.pdf>

We obviously want to see what the FDLE investigative report concluded regarding the AK-47 rifle.

On the night of the shooting - Sheriff Chitwood stated that the AK-47 was fired (see attached youtube video - as incorporated to our pending article).

<https://youtu.be/1VMwsKcRRJI>

Does Sheriff Chitwood still insist that the AK-47 was fired - or does he wish to retract that statement - in similar fashion as he did regarding his statement that Ms. Jackson-Maldonado had set a home on fire in Flagler County.

We have watched and **listened** to several hours of BWC video - and no where - do we hear the distinctive "crackle" of AK-47 gun fire.

Further matters we wish to resolve (and seek your assistance in resolving)

1. Regarding the VSO internal investigative report (see below linked) - Deputy Anthony Ray was cleared in the shooting by the State Attorney - but he is not mentioned as being cleared by FDLE (see body of text of VSO report - below linked report) Was that just a typo error - or did FDLE fail to clear Deputy Ray?
<http://volusiaexposed.com/investigations/vcso/2021/september/IA21006Severaldeputies.pdf>

2. **Cpl. Tony Tagle from the DeLand police department** was noted as having some involvement with this shooting incident (possible witness?)(again refer to the above linked VSO investigative report). Our rationale for vetting Cpl. Tagle's involvement - is that - one of Ms. Jackson-Maldonado's defense attorneys' (Allison Hughes) spouse is employed as a lieutenant with the DeLand PD. Per our understanding - Lt. Hughes is in charge of criminal investigations.

Of further significance - Mr. Larry Avallone - another one of Ms. Jackson-Maldonado's defense team - is a former VSO deputy.

It is our (VolusiaExposed.Com) intentions to do a fair and accurate account of the shooting incident - the investigations (both VSO and FDLE) - and other matters attached to Ms. Jackson-Maldonado's Court disposition - but in fairness - we need some clarity and records from your office in order to complete our review.

Sorry for being such a PIA about this - but 60 years (20 yrs prison / 40 yrs probation) of a young girl's life hangs in the balance.

Regards,

VolusiaExposed.Com
editor@volusiaexposed.com

cc - as indicated

bcc - several (many internal to VolusiaExposed.Com)
