Hello.

! This is Not a Confession!

This is to tell u more abt me myself - So when i was 12 years old, i was placed in a group home because, my mom was doing drugs, and we didn't have food and the right clothes or shoes. So i have 6 Brothers and 1 Sister all from my dad, 4 from my mom, 1 from an unknown ~~man~~ woman, 3 from a woman i call Joy. She was 17 when she met my dad, i was 12 when my dad was 42 years old. when i went into the group home, i was beat up by 17 year old and 16 year olds. remember as i tell u the whole story i was 12 years old. The next day when we were taken, i never saw my brother, even when i got into a fight with them i still love them so much, we all are close, ~~except~~ except my oldest one/brother. but ~~but~~ i didn't see them i had a little paince akked, which is i ~~get~~ get all the time. so i acted up and the girls came into my room and said "aight u little bitch u wanna play tuck?" and they started ~~hit~~ hitting me, pushing me, pulling me, The group home lady said "yeah beat her ass since she wanna act up". Somebody called the police, i ran outside i couldn't see, i had a broken lip, black eyes, one of my fingers, were hurting so much, my hair had blood spots all over my head, i was crying so much, there was blood ~~everywhere~~ everywhere, and the cop said "well kid you can't press charges because you hit them first" and for some reason i couldn't speak ~~at~~ at all, i don't know why i couldn't, but i was streaming

on the inside, saying "no i didn't" crying. They took me to
 the hospital mental thing. as i stayed in many group homes
 i just got beat up over, and, over i Never ^{Scared} ~~Scared~~
 because of how many times i have been hit. Nobody belived
 me when i called for help, i learn how to fight a began
 to perceted myself, i didnt go to school. i was always
 on the run. i love being outside. i met these woods
 i called "Nikis home", which is my home. There was
 old stuff, abanede stuff like Beds, Tables, alot of
 stuff so i made an home. i caught lizards, made
 cool stuff out of skins. and i enjoyed outside alot. i never
 wanted to stay inside EVEY. i would say to the cops
 i want or going to kill myself, to avoid going back
 to the group home. i liked it in the mental hospital,
 i feelled self there i been treated like a person and not just
 some puching bag for anger. but after a while they started
 sending me back the next day, and they girls would hit me
 they would say stuff to me, dark stuff like "Please go kill
 yourself it will really help us" so i will go to my room
 and cry. so yes i would try to kill myself because, of
 the pain and hurt, i think i have brandanges from
 getting puched in the head. i just stare into space randomly
 in the jail cell, they jof me in the cell all day because
 they have no where to put me. because im the only girl
 durinella, i tried to stay out of trouble, which is good
 sometimes, i get panic attled, and i start streaming but
 other then that im pretty chill. Thank u for listening.
