There are no records of any sexual assaults in July 2011. If you have a name I can check that way. Dave Byron

Mr. Byron:

Thank You, we shall await your reply.

Further, should VCDC continue to hold the position, that they have no records regarding the July 2011 incident - then we would appreciate an explanation, as to why these records apparently do not exist.

Absent any records, or an explanation - we will have only our theories, the lack of provided documents, and the division's policies / past practices to guide our article.

Let it not be said, that we were unfair in our article.
