VolusiaExposed.Com anticipates posting an article regarding the DBPD Officer Michelle Smith IA investigation. (see developing article's link)
<http://volusiaexposed.com/dbpd/officermichellesmith112016.html>

For inclusion within our article - we wish to know whether the SA's office has made a decision on whether former Officer Smith will face criminal charges.

If the SA's office opts not to file charges - our article will question why not - and compare the SA's decisions to file charges against Mr. Morrison and Mr. Thripp - with that of not charging Smith.

Mr. Morrison was ONLY alleged to have pointed a gun at two police officers. While Officer Smith actually fired her weapon.

Mr. Thripp was ONLY alleged to have lied during a 911 call - but the charging officer seems to have provided false information within his charging report - false information that can be verified via video evidence submitted by the charging agency.

Morrison - <http://volusiaexposed.com/highprofile/morrisonchargedrop102016.html>

Thripp - <http://www.volusiaexposed.com/vcso/richardthripp92016.html>

Please advise ASAP - we anticipate posting our article either later today or tomorrow.
