Mr. Young:

We (VolusiaExposed.Com) have been covering the Dana Delaney Loyd matter since her August 2015 arrest on the charge of making a false call to the Florida Abuse Hotline.

Loyd was convicted of this charge in March 2017, and sentenced in April 2017. She does have an on-going criminal appeal.

Our latest article regarding Loyd can be viewed at the below listed web link.

Mr. Young - in anticipation of our next Loyd article - we would like to ask you a few questions.

According to BCSO records - you investigated a 2009 allegation lodged against Timothy Michaud - the allegation was that Michaud was sexually engaging his daughter.

*Did you actually conduct this 2009 investigation?

According to these same records (BCSO) - two other similar allegations were lodged against Michaud in 2011. These allegations were investigated by BCSO Investigators Mazzone & Stafford.

In both their investigative reports - Mazzone & Stafford acknowledged that during the 2009 investigation - YOU had conducted several interviews of the Michaud child.

*During the 2009 investigation - did you actually interview the Michaud child - if yes - where were these interviews conducted?

*Were any of these interviews telephonic - or were they face-to-face interviews?

*Have you ever read the Mazzone & Stafford reports?

Since Investigators Mazzone & Stafford appear to support their investigative conclusions - based at least in part - in their belief - that you did interview the Michaud child in 2009 - it would be significant to our article if you have in fact NOT actually interviewed the child - as some of our sources have alleged.

Please use our below email address as our point of contact.
