I'll see what we can provide to show how our system carries out the requirements of the Admin Order for case assignment.

Laura:

Ludi Lelis (see attached email thread) states that you may be able to guide in my understanding, regarding the assignment of Judge Hudson to the Luis Toledo murder prosecution.

From my understanding, these types of cases (murder indictments) are rotated between five circuit court judges / divisions - can you confirm that Judge Hudson was assigned to the Toledo case via this rotation schedule? And can you provide any policy that documents the existence of this rotation schedule.

I was provided that attached court policy that appears to indicate that such cases (indictments) are to be "assigned equally" between divisions 7,8,41,42,43 - but I don't see any documented rotation schedule / requirement.

Thanks

VX
