Subject: Public Comment - Pending JNC Interviews

Mr. Christopher Greene
Florida 7th Circuit
Judicial Nominating Commission

Mr. Greene:

Per your request for public comments & input regarding the pending Judicial Nominating Commission's interviews of judicial candidates.
(see below web link)

We (VolusiaExposed.Com) note that David Cromartie has submitted his application for this judicial position.

Last March 20th – we ran the below linked article in which we questioned Mr. Cromartie's ability to separate himself from prosecutions involving falsifications by police officers.

Within this above linked article – we provide video of Mr. Cromartie's interview with your Commission from February 2016. During this interview – one of your commissioners directly challenged Mr. Cromartie - regarding his handling of a DUI prosecution – in which the arresting officer had lied.

Our article also presents two other separate prosecutions by Mr. Cromartie (State v. Beauprez & State v. Thripp) – that indicates that Mr. Cromartie still has a rather high tolerance - regarding police officers that present falsifications.

We (VolusiaExposed.Com) hold the opinion that our judges should have a ZERO tolerance for police officers that are willing to lie – in order to forward their filed criminal charges against defendants.

Thank you for this opportunity.

Regards,
