In short the article questions why a 14 year-old child was prosecuted for the attempted murder of several deputies - when a 74 year old man can do similar, and only be charged with ONLY the aggravated assault on deputies?

There are other issues discussed in this article - like whether it is a fact - or a lie by the sheriff - that the child's arrest involved the usage of AK-47 ammunition being fired on the deputies.

Whether the child's court assigned defense attorney had a conflict of interest regarding his past employment as a Volusia County deputy.

We (VolusiaExposed.Com) anticipate publishing this article within the next 48-72 hrs.
