**Subject:** RE: IA ROI - Sheriff Johnson  
**Date:** Mon, 22 Oct 2012 11:26:25 -0400

The Sergeant Turney memorandum dated September 21, 2008 is attached as requested. No internal investigation was conducted, and to the best of my knowledge, no other records regarding this matter were generated by the Sheriff's Office.

Gary

Subject: IA ROI - Sheriff Johnson

Gary:

VolusiaExposed.Com requests any documents attached to allegations that Sheriff Johnson drove while under the influence. These allegations surfaced in the media in or around October 2008 - please see the below attached WFTV video, as well as a Daytona Beach News Journal article.

In the particular, we request the document(s) that are mentioned in the below media articles, to include, but might not be limited to:

The VCSO Memo that Sheriff Johnson refers to. (DBNJ --- "In the memorandum dated Sept. 21, sheriff's Sgt. Joel Turney, said he ran into Brooks at 1 a.m. at the Deltona Sheriff's substation, while the trooper was investigating a hit-and-run accident.")

Also, since these allegations were documented within the VCSO, and since it would appear that an argument could be made, that Sheriff Johnson indicated or implied that he might have driven while intoxicated — we would imagine that the VCSO conducted their own internal affairs investigation into the matter. Therefore, we request the VCSO IA ROI attached to these allegations.

Lastly, we would request any other documents on this situation, that your office believes, would give us a better understanding of what transpired.
