

WITNESS STATEMENT

JB – Jack Bisland AO – Capt. Alan Osowski

JB Testing 1-2-3-4-5, 5-4-3-2-1. Today's date is January 5th, 2011. The time now is approximately 9:15am. My name is Jack Bisland, I'm an investigator sworn law enforcement officer with the State Attorney's Office in the 7th Judicial Circuit. I'm conducting a criminal investigation and this interview is being conducted at the State Attorney's Office in Deland, Florida. I'm interviewing Mr. Alan Osowski. Also present in the room is Mike Teal an attorney representing Mr. Osowski. Before we get started I would like to establish first Alan that this statement is voluntary is that correct?

AO That's correct.

JB And that no one has threatened you, coerced you or made you any promises in order to induce you to make a statement at this time is that correct?

AO That's correct.

JB Additionally I want to establish that you're under no obligation to answer questions or give a statement in this matter as anything you say can and will be used as evidence against you in court, do you understand that?

AO Yes I do.

JB And essentially it's been represented to me that you're here today voluntarily waiving your rights aware of them because you want to tell your side of this story.

AO That's correct.

JB Very good. Your attorney's here Mr. Teal representing you to provide you counsel during this interview and at any time if you wish to confer with him or stop questioning or leave certainly you may do so, do you understand that?

AO Yes I do.

JB Ok this will be a sworn audio recorded statement taken by law enforcement officer pursuant to Florida Statute 117 10 and at this time I'd like to place you under oath. If you would please just raise your right hand. Do you solemnly swear of affirm that the statement you are about to give will be the truth the whole truth and nothing but the truth so help you God?

AO I do.

JB Would you please state your full name and date of birth?

AO Alan D Osowski, born June 10th, 1949.

JB And your current address please?

AO [REDACTED]

JB And if you would provide a good contact phone number please.

AO [REDACTED]

JB Ok. Alan, is it ok to call you Alan?

AO Yeah absolutely.

JB As you're aware from our telephone conversation on December 25th the Sheriff's Office has asked the State Attorney's Office in late November to conduct an investigation into the tragic fatality accident which occurred on November 25th, Thanksgiving early evening involving members of your family and that's why we're here today.

AO Uh huh.

JB Specifically that investigation focuses on your actions and/or inactions and your son Michael's availability to traffic homicide investigators to provide an interview and/or potential blood draw. And essentially this investigation starts from the time that you were notified of the accident, got on scene until the events the following day...

AO Ok.

JB ...when you met with the Sheriff's investigators. So on November 25th, 2010 were you employed as the district commander of the Debarry district for the Volusia Sheriff's Office?

AO Yes, yes I was.

JB Were you on or off duty on Thanksgiving Day?

AO Off duty.

JB To establish a predicate if you will is it an accurate summary that yourself, your wife, and your son Michael, your mother Peggy and your mother in law I believe is it Dorothy O'Brien?

AO Yes.

JB Spent Thanksgiving Day early at your residence in Orange City, you then collectively went to the Debary Country Club where you had a meal and then returned back to your home. Is that an accurate summary of the day's events?

AO Yes, uh huh.

JB How did it come that evening or late afternoon, how did Michael come to drive your mother home?

AO We were planning on having a two day garage sale after Thanksgiving, we normally do it every year it's kind of like a tradition for us and so approximately 6:00 all our garage sale items were kept in my mother in law's garage so we all decided well it was time to start getting ready for that garage sale. My mom, I normally take my mom home but she doesn't get a chance to see her son, her grandson very often so she asked if he would take her home.

JB Ok.

AO And I agreed um, because we had some things to do and he needs to spend I like to see him spend time with his Nana and so that's how she got to be driven home by Michael.

JB Ok very good.

AO At the same time they left my wife and I in separate vehicles went over to my mother in law's house to start loading up the cars with all the garage sale items for the next day.

JB Very good. How were you notified of the accident?

AO I received a phone call from Michael and from the best of my recollection all he really said was "Dad I've been in an accident" and he told me where and I, he must have got busy with something I'm not sure but that was the extent of the conversation.

JB Ok.

AO My truck was backed into the, up to the garage door and my wife's car was in front of mine so I just said "listen Michael's been in an accident I need to go, give me your keys and I'll give you a call and let you know what's going on" I don't know if I'd actually left the driveway yet or whether I was just getting in the car but I got another phone call from Michael.

JB Ok.

- AO And he said something to the effect that Nana's hurt and he, your could tell he was just devastated, he was panicking and so I said "I'm on my way"
- JB Ok.
- AO And that's all, that's the only contact I had with him until I actually arrived on scene.
- JB Can you, if you can can you estimate the amount of time from when Michael and your mom left till you got the first phone call?
- AO Time, times are really screwed up for me that night. I'm going to guess maybe 10, 10 minutes?
- JB Ok very good. So you responded, you arrived on the scene and you were driving your wife's car as you said, what were your initial observations?
- AO I saw a lot of emergency personnel. I pulled up and I parked behind, behind a um, a fire department it wasn't a truck it was like a maybe like a command vehicle or something and I could see, I could see where Michael's car was up near the intersection up on the, up on the curb or the grass whatever and um, I could see Mike, as I started walking up to the car I saw Michael there looking, he had such a panicked look on his face like he was standing there watching and there was a female I assume was a paramedic or possibly a nurse leaning um, kind of kneeled outside the car and then I saw my mom kind of hunched over in the car. Um, they were trying to talk to her. As I got closer I, it didn't look like, her eyes weren't open but they were trying to get her to do something. Somebody had, I heard vital signs being called out and they sounded pretty good to me but so I got to the window and I started talking to her just, I don't know if she knew I was even there but I just thought maybe the sound of my voice would help her...I'm sorry.
- JB I understand.
- AO Realize that everything's going to be ok just relax and everything's going to be ok. And so that was my initial observations.
- JB Do you remember communicating with any of the deputy sheriff's at the scene?
- AO Uh, I know Sgt. Day came up and talked to me at one point. I don't know whether he just saw me or whether he was just coming over to check on Michael. I understand that he had already checked Michael, Sgt. Day is also a paramedic and he kind of checked his chest, Michael was hurting pretty bad he got, I guess he got the brunt of the steering wheel. Um, anyway I think I might have told him that it was my mom and I don't think he knew that and then of course he disappeared again and I don't recall having any long conversation with him.

JB Do you remember having a conversation with Deputy Sheriff Galarza?

AO Not necessarily a conversation but I think he was the one that, and I wasn't getting a lot of information from any of the medical people.

JB Ok.

AO They probably had no clue who I was but I think Dep. Galarza told me that they were taking, the helicopter already landed and they were originally going to be taking her to Halifax but when they were, when she was in the ambulance I guess they were having some kind of a, her vitals were going bad again and he said something about "they're going to take her to Fish Hospital to stabilize her before they take her to Halifax" and uh, I think that's the only contact, other contact I had with him until a little bit later after the, after the ambulance left. I said "is it ok can we go?" and he said "yeah go ahead"

JB Let me, let me, lets get in the weeds in that just a little bit (unintelligible).

AO Ok (unintelligible)

JB So at some point after your mom is transported via ambulance to Fish Memorial you have a conversation with Dep. Galarza and you essentially say...

AO It's just a question basically.

JB Ok.

AO You know I guess at that point he is telling me, I can't remember the exact timeline on how these conversations took place but...

JB I understand.

AO ...but um, I guess that's when he told me that the ambulance went to the Fish and I said "Can we go?"

JB Ok.

AO And, and he said, and his words were almost like, almost "yeah you can"

JB And you said "we" who...

AO We...

JB ...who was that?

AO It would have been myself and Michael.

JB And was Michael there if you can remember?

AO Yeah Michael was right there when I asked him that question.

JB And Deputy Sheriff Galarza said “yes”

AO Yes.

JB Prior to leaving the scene did you remove anything and take it with you from Michael’s vehicle?

AO Yeah we kind of took everything out of the trunk of his car. I um, it was obvious that car was never going to be driven again so we uh took, he had his school books and his work materials and it’s actually a hatch back so I think we had to go in behind the seat I don’t really recall specifically.

JB Ok.

AO And of course I grabbed my mom’s purse and her shoes because they had, they had taken them off and I knew that when she woke up and she would want, those were her favorite shoes and if I didn’t have her shoes I was going to be in big trouble.

JB So you and Michael then leave the scene of the accident, where are you going?

AO We go to Fish Hospital.

JB And why were you going to Fish?

AO Because that’s where I was told that the ambulance was going to Fish Hospital. And then um, then the helicopter was also going to Fish Hospital and they were going to air lift her from Fish to Halifax.

JB What did you learn at your arrival? Did you go directly to Fish?

AO I went directly to Fish.

JB What did you learn upon your arrival?

AO When I got there I met the acting chief he might be fire chief now but he was acting chief Rick Boregard and my first comment were “what are you doing here?” you know and he said “I heard the call” so he, he was going to escort me into the hospital. At the same time I think I ran into chaplain Alex Carmichael and so we were right there at the entrance to the ER and Rick opens the door and we walk in and I guess they were working on her in the first room on the left hand

side and they closed the curtain and I hear a flurry of activity and Rick said “lets step back outside again” so we step back outside, just outside the doors. The room’s right inside the doors and so we just stepped right outside the doors.

JB Is Michael with you this whole time?

AO And Michael is with me yes absolutely.

JB Ok very good.

AO And um, within a very short time and I, minutes perhaps two doctors come out and tell me um, ask who I am and I said “I’m her son and this is her grandson” I think, and they said um, “well her age is against her but she has a broken pelvic, she had a collapsed lung but we were able to put a chest tube in” and they mentioned some type of a head trauma but I didn’t really quite catch that and so I’m thinking well that’s not too bad, when she gets to Halifax I’m sure they’re going to fix her up just right you know so um, so anyway we just kind of stood around and waited because they hadn’t wheeled her back out to the helicopter yet so we were just basically waiting at this point.

JB Ok.

AO And I don’t recall any other conversation with a doc, with any of the medical personnel. There was a woman there um, she said something about “I was, I was at the scene” I think she was in scrubs and I think she said her name was Cindy but I’m not, I just don’t remember for sure.

JB I know you mentioned times are difficult for you because of the confusion and all but can you estimate how long generally you were at Fish?

AO I don’t think any longer than 10 minutes.

JB Ok.

AO Because I think after the doctors came out and that was, that was pretty quick after I got there I think they were, they were wheeling her on the gurney to the helicopter within, within minutes of that.

JB Do you remember seeing or speaking with any members of the Sheriff’s Office at Fish?

AO Um, no. I ran, Cliff Williams had stopped by. He was, he was at his mom’s and he heard the call so he came over um, I saw him just briefly and then um, and then Alex Carmichael of course.

JB Ok that’s the chaplain?

AO And then the Sheriff called me while, at that time and I was talking to the Sheriff.

JB Cliff Williams is that a deputy?

AO Uh yeah that's a lieutenant?

JB Ok was he working then?

AO No, no.

JB Ok.

AO He was off.

JB I learned from interviews, it was represented to me from interviews that I conducted that when you and Michael left Fish you were headed to your house to get Ann and go to Halifax is that accurate?

AO No because I never said anything about, I mean I'm not sure, no I never said anything. Um, at this point I had two, two main concerns. My mind wasn't working for whatever reason which is really distressing me today um, I, my mom, I had two focuses. One was my mom and being there for her when she, when she got out of the uh, when she got out of surgery and the other was for Michael who was hurting and basically in shock is the best I could recall and I knew that I was going to go to Halifax Hospital and I was going to stay there for the duration however long it took and I knew that Michael couldn't do that. He needed, he was hurting and I wanted, I really wanted to try to tell him to come to my house because we live fairly close to, close to there. Um, but he said "no I want to go home" so I chose to take him home.

JB What did you do when you left Fish?

AO I took him home.

JB You drove Michael home to Deland.

AO Drove Michael home right.

JB So you left Fish, you drove Michael home.

AO Right.

JB Did you go in the house when you got there? If you can remember.

AO I, yes because I had to help him carry all of his personal belongings into the house.

JB And then you left Michael's house where did you go?

AO I went right straight home to pick up Ann.

JB The route, that route then from Fish to Deland back to Orange City to Daytona, is there a reason why you didn't pick Ann up on the way and then go to Daytona? Was there any thought about that, can you...?

AO No there wasn't. I'm not even sure if she was home um, because when I left she stayed, when I left Dorothy's house she stayed with Dorothy. I don't know how long, I, I, just it really wasn't even a thought actually.

JB Ok. Do you remember having a phone conversation with Ann at some point. You said that you were preparing for the garage sale, you told her there's been an accident I'm going, do you remember subsequently shooting her a call of some kind briefing her?

AO Yeah I'm sure, I'm sure I did um, in fact that's why, that's, I think we talked about going to Halifax, she said she was going to pack toothbrushes...

JB Ok.

AO ...and mouthwash and mints and things because we were planning on being there for the duration. My mom has had several issues, medical issues and every single one she's bounced back and came thru with flying colors.

JB Ok.

AO Cancer, broken back, so it was not, I just knew that she was going to be fine um...

JB At the point in time where you take Michael to his house in Deland, did you, what were your conversations with him? I mean in your mind when you left what was Michael going to do that evening, had he shared any of that with you?

AO No he really didn't say. He was, he was pretty much just lethargic and, and we probably I don't even recall any conversations that we had.

JB Ok.

AO We just...

JB Ok that's fine.

AO I don't know.

JB So you pick up your wife Ann at your home in Orange City and then you travel to Halifax. Essentially when you arrive at Halifax who's there and what do you learn?

AO I'm um, when we get there uh I had never been to the new part so I pulled into the wrong parking lot and that's the first conscious thought I had when I pulled in and (unintelligible) nobody's here so and every parking lot, every parking space was a handicap so I had to find a, anyway when we get up to the door I'm greeted by Capt. Chico Mandizha and Lt. Charlie Brown and they of course said "come on back with us" so we start walking and I'm, I'm expecting there to be a flurry of activity. Well we're going passed all the emergency rooms, curtains closed lights on a lot of activity and we're going further and further back into the emergency room and it's getting darker and less activity and I've got this sinking feeling in my stomach and I don't, anyway we come to this nurses station where there's one nurse and she's on the phone and she, she just kind of cups the phone and says "have you been updated?" and I said "no" so she finishes her business on the phone and comes around the desk and "I'm sorry to tell you that your mom died" well the floor just fell out from under me and my wife just, it was bad.

JB Ok. There's a period of time there where you spend some time, you and your wife Ann...

AO Right, right.

JB ...with your mom. Did you or Ann call Michael to notify Michael?

AO I believe Ann did. We made a lot of phone calls after the, the um, and I'd say we were there a while. After the initial shock and you know I sat down, I called my sister um, and had a conversation with her. I think...

JB Does your sister live in New York?

AO Yeah she lives in New York yeah. Um, she uh, I think Ann called well she probably called everybody else I, I was, I was pretty upset.

JB Prior to leaving Halifax do you remember speaking with Capt. Mandizha and Lt. Brown and either one of them asking where Michael's location was?

AO Uh, no they never asked me that and that's something that I've thought about afterwards, no one ever asked me where Michael was. When we were leaving um, Capt. Mandizha said um, I'm trying to remember the exact words. Um, "you know the deputies are going to need to speak with Michael" and I'm thinking why are you telling, I know they are why are you telling me this you know. And I said "oh I know there's no problem" but they, no one ever asked me where he was.

JB So you don't remember any confusion about um, representing or saying "well he's at the house" meaning his house versus your house, do you have any recollection of any of that?

AO No, nothing was, nothing was said about, nothing was asked about his whereabouts until we got home.

JB Ok.

AO Um and then, then we had some conversations about that.

JB Ok, so you leave Halifax with your wife and where do you go?

AO To Dorothy's house. My mom and my mother in law were best friends and uh...

JB Ok.

AO ...and she took it really bad and, and I don't know if my wife called her by phone or not but I know that we wanted to stop by and see how she was doing. We were there probably 15, 20 minutes at the most.

JB And is she in close proximity to you in Orange City?

AO Yeah about three or four streets away from our house?

JB Ok very good.

AO In fact I had received a, after we left Halifax um, I received a call from Lt. Brown, um, saying, because when we left I guess there was some property that we were supposed to take with us and the nurse wasn't there so nobody I guess knew and so we were probably on ISB I think, I'm not even sure but he said "there's property here for you to pick up" and I said "listen can you just grab it" I did not want to go back into the emergency room for anything in the world.

JB Absolutely.

AO And I said "if you don't mind I'll just catch up with you later"

JB Very good.

AO So after we leave Dorothy's house we had just gone half way down the street and he calls again and said "hey I've got the property for you, I'm at your house" and I, "ok I'll be right there we're just around the corner" basically. So when we drove up there were three SO cars there.

JB What happened when you drove up and you engaged the Sheriff's Office?

AO Uh, Lt. Brown handed me the package and all that was in it was dentures and her watch but it was her property so he handed me the package and then I think, I think, I don't really remember. Lt. Hughes was there I know and Dep. Tew and for some reason they thought Michael was in the house and I said "no, there's no, he's not here I took him home" and then somebody asked me what his address was and you know I feel pretty ridiculous because I don't know his address but I know where it is of course but I don't know the actual numerical and uh, and then I think it was Lt. Hughes said "oh yeah it's..." something on [REDACTED] they had the address on the computer. You know that's his legal address, uh legal residence and that's what his car is registered at and so I was surprised that they hadn't already checked there but...

JB So they asked you about the address and when they, they mentioned the [REDACTED] address did you confirm that that was his address?

AO Yes, yes.

JB Ok did they ask you where his bedroom was at the house?

AO Uh, a little bit later.

JB Uh huh.

AO Dep. Tew kept returning to our house probably three different times and as I look back on it I'm sure that someone was at the house asking him to, radioing him to ask us questions and that's what it sounded like to me. Uh but yeah I kind of gave him a description of the house, it's a really big house it's been added on and to the best of my recollection I kind of guided them thru to where his bedroom might be.

JB Do you remember if you were asked if you had a key to the residence?

AO No I don't recall that and I don't because it's a, I don't.

JB Were you asked by Lt. Hughes, Lt. Brown or Dep. Tew that was there to attempt to call Michael on your cell phone?

AO Um, yes um...

JB Tell me about that.

AO Right about the time, we were still standing in the driveway of the house um, and Dep. Brown, Lt. Brown asked me "can you get a hold of him?" and I said "sure let me try" so I dial his number and it goes to voicemail so I left a message, I said "Michael there's deputies here, they want to get in touch with you, when you get

this call...” and I started to give central’s number but then I thought well what number should I give him and I guess Lt. Brown gave me a number, I don’t recall what that was at all.

JB Very good. Did you provide information to the deputies that night at your house about Michael’s girlfriend and her identity or phone number or any information about her?

AO Um, I don’t remember but all I knew was her first name so I wouldn’t have been able to give them any information about her other than her first name and the fact that I did know Michael had mentioned to me probably prior to Thanksgiving that she was going to be in south Florida for Thanksgiving...

JB Ok.

AO ...with her family, extended family I guess.

JB When was the last time you spoke with Michael on the night of the 25th?

AO Uh, when I personally spoke to him probably when I dropped him off at his house.

JB The next morning do you contact Michael or does Michael contact you?

AO Michael calls me, he must have got his messages and I’m guessing it’s around 7:30 in the morning.

JB And what’s that conversation, what happens as a result of that?

AO Um, I asked him “did the deputies get a hold of you?” because when they never came, when they never came back the night before I just assumed that they had made contact. No one, no one called me, no one said anything, so I just assumed that everything was fine. When he called me in the morning I said “did you talk with the deputies last night?” and he said “no” and I said “well go look on the outside of your door did anybody leave a card?” and no they didn’t. So I said “ok well they want to talk to you, stay by the phone” or something, words to that effect I’m not even sure what I said I didn’t get much sleep that night so I’m not really positive what I said.

JB Ok.

AO But I do know that as soon as I hung up with him I contacted the uh, I knew that delta shift was working, the sergeant is Dan Genovese, I was hoping he was working that day. I called him and said “listen do me a favor, see if you can get a hold of...” I can slow down a little bit if you want to...

JB No, I'm good.

AO Um, see if you can get a hold of Joe Ramos he's, he was the Debary motor man on duty and he's also a THI member but I didn't know what, I didn't know what team came out the night before.

JB Ok.

AO So I said "listen get a hold of whoever you need to get a hold of and let them know that I just got a, just received a phone call from Michael he's at the house and he's ready for somebody to contact him" and, and Sgt. Genovese assured me that he'd take care of that.

JB Ok and then ultimately yourself, Michael, I believe Ann and Hilary Drew who is Michael's girlfriend...

AO Drew, that's right.

JB ...later that day go to the Sheriff's Office Deltona sub...

AO Deltona substation right.

JB And all four of you are interviewed?

AO Yeah, right, correct.

JB Do you remember learning that Michael took a sleeping pill the night of the 25th?

AO Yes and...

JB Tell me about that please.

AO ...yeah this was strange um, we're sitting on our back porch about um, I'm going to guess, well it was after 11:10 because that's when our little decorative lights go off on the timer so we were sitting in the dark and I get a call from uh, Major Jones and his first words of course are his sympathies about the incident and uh, and then he says you know "the deputies need to, on a professional note, the deputies need to get in touch with Michael" and I said "yes I know they've been here and I've given them as much..." I don't recall the exact conversation but my wife is telling me while I'm talking to Major Jones my wife is telling me that she tried calling him several times and earlier and I don't even know when, I just don't know, but she said that he had taken an Ambien.

JB Ok.

AO Uh, to, and when I heard that I said no wonder they can't wake, you know knock on the door and he's not answering. It kind of like, oops you know.

JB Ok. I've got your sheriff's office cell records from that evening.

AO Uh huh.

JB And I just want to...

AO Sure.

JB ...just run thru these. On the 25th Thanksgiving there is an incoming call at approximately 6:14 from your son Michael's cell phone.

AO Ok.

JB Is that likely to have been the notification?

AO Probably the initial call right.

JB According to the CAD report I think they were dispatched at 1611 so, 1811 so.

AO Ok so that would make sense.

JB And then you had mentioned earlier that he had called right back and then there's another phone call at 6:15 from him as well...

AO Ok.

JB ...so that would probably be that second call.

AO Ok.

JB And then the activity on your phone next is at 6:18, presumably still at that scene I would presume you call Dorothy O'Brien your mother in law.

AO Ok, I talked to my wife then ok.

JB Ok and that's [REDACTED].

AO [REDACTED], correct.

JB That's her home number?

AO That's her home number right.

JB Ok. And then there's an incoming call at 6:25 to your cell phone from Dorothy's residence, that's probably Ann...

AO Ok probably my wife calling me back.

JB 6:45, 7:02, again there's incoming calls to your cell phone from that so it's probably continued conversations with your wife.

AO Ok probably wanting to know updates because at some point I'm sure I told her they were taking her, taking her to Halifax first.

JB Right.

AO And then taking her to Fish and then back to Halifax and...

JB At 7:07 there's a call from [REDACTED] that's your residence...

AO That's my residence.

JB ...to your cell phone, do you remember who that would have been?

AO I'm sure it was my wife.

JB Ok so she's...

AO Probably wanting to know, so she went home she must have gone home by that point.

JB Very good. And then another phone call from your wife to you about 7:44pm.

AO Ok.

JB And then I presume the next call of activity on your phone is to New York.

AO Ok.

JB And that's at 9:26.

AO 9:26 ok.

JB So that would have been after notification, you called your...

AO Ok so yeah, yeah exactly I have no, no, so this is actually filling in my timeline because I don't.

JB Right and that's what I wanted to do.

AO Ok but I called her, yeah.

JB That would have been from Halifax.

AO From Halifax right, from the ER.

JB And then at 10:18 there is a um, phone call to your voicemail so perhaps you checked your voicemail at that point. At 10:54...

AO To my voicemail?

JB Yeah, to your phone calling your voicemail.

AO I don't know what that would be, ok.

JB But at 10:54 there's a phone call two minutes in duration to your son Michael. Would that likely have been...

AO That's when Lt. Brown asked me to make that phone call.

JB Ok and you left a voicemail message?

AO And I left a voicemail message right.

JB And then the next activity on your phone is the following morning where you received an incoming call from Michael's cell phone at 7:13 in the morning.

AO It was 7:13 ok, I just thought it was 7:30 but I...

JB And that would have been, essentially Michael wakes up, hears his messages and calls his dad.

AO Hears his messages right, calls me right.

JB Ok. Do, you mention your conversation with Major Jones on the phone. Do you remember him asking you if you would go to Michael's house and assist the deputies?

AO No.

JB Ok.

AO Which I would have done had someone asked me to do that. But I don't believe, I don't believe he asked me that.

JB Ok. Um, just a follow up question from the scene, do you remember Michael surrendering his license to any one of the deputy sheriffs at the scene?

AO I never witnessed that but he told me he had and did all that information, he gave his story, he gave all the required information and received it all back and I don't know if it was before I got there, after I got there I, I just don't know.

JB Ok. Give me one minute just to make sure.

AO Ok.

JB I don't have any additional questions. Certainly at this time if you have any questions either of you I would be more than happy to try to answer them.

AO I'd just like to add one more thing.

JB Ok.

AO You know I'm a, I've been in law enforcement a long time and I've never had a problem making decisions, um, knowing what to do. That night I, I was clueless I had an emotional melt down. I don't remember times, I don't remember, remember anything and that's a real embarrassment to me today. That's not how you're supposed to act. I just wanted to let you know that.

JB Ok. Mr. Teal is there anything you'd like to add?

MT Just if I might ask him a question. You said you felt Michael was in shock?

AO Yeah, yeah.

MT And pain?

AO Yeah in pain.

MT You think you may have been in shock?

AO You know I've been told I might have been in shock um, I know that nothing, my brain wouldn't work, I, I remember people asking me you know thru out this whole ordeal "anything we can do for you just let us know"

MT Uh huh.

AO I didn't know what to do.

MT Right.

AO I, I couldn't make two thoughts come together in my head you know all I could see was my mom and my son and that's all, that's all I knew and looking at it later there's a ton of things I could have done but nothing worked.

JB Very good.

MT Do you have any idea how long you and Michael were at the scene before Dep. Galarza said it was ok to leave?

AO Um, I'm just going to guess. Well I didn't leave until after the ambulance left so you know I, whatever the CAD history would have but I'm going to say at least, at least a half hour, 40 45 minutes maybe I'm not sure.

MT Ok.

JB Any other questions or comments?

MT No, not at this time.

JB This will conclude the interview, the time now is approximately 9:52
