Mr. Davidson:

The Deputy Willard web page is scheduled for an update within the next couple of days. We here at VolusiaExposed.Com would rather the update be the presentation of the completed IA file, than an update, questioning why the VCSO has taken more time compiling the IA file then it took to complete the IA investigation. Such appears to be our appropriate course, since you can not even supply us with an estimated time frame when this IA file will be available for public record release.

Thank You
